

## FEATURED CUSTOMER SUCCESS STORY

## Kosciusko County Circuit Court

**Seamless move from paper to digital docket displays, improved visitor experience, reduced staff interaction.**

Helping courts and justice centers automate their visitor experience.

READ THE FULL SUCCESS STORY BELOW

# The challenge

The Kosciusko County Court wanted to replace their paper dockets with a more visitor friendly and Court efficient solution by utilizing Digital Signage to post the daily Court docket.

The challenge however, was the Court building built in 2001 has a beautiful architecture including marble walls which were not conducive for the drilling and mounting of the Digital Signage and Media Players.

CIRCUIT COURT

# The solution

Adgators proposed and implemented free standing Digital Displays which eliminated the need for any construction work that would have impacted the structure of the Courthouse. In addition, Adgators utilized wireless Media Players versus a wired solution to eliminate the need for any cabling inside the Courthouse.

The result is dockets are now displayed using Digital Signage on the first and second floor of the Courthouse that improves the visitor experience while reducing the interaction with Court staff, making the Court more efficient. The Digital Displays have been complimented by both visitors and Court staff members alike.
